Our Scouts and their families are the reason the Scout Programs of Adventure Scouts USA offers co-ed programs. In addition, by having a co-ed Scout Program, it permits us to live up to our non-discriminatory policy of seeking the best in others, and evaluating others based upon the content of their character. Our co-ed membership and programs also permit and encourage entire families to participate in our family oriented activities. From the youngest of children, to multiple generations of families, our co-ed and non-discriminatory Scout program encourages participation in modern, FUN activities.
